NTIA
Broadband Technology Opportunities Program
c/o Larry Strickland
National Telecommunications and Information Administration
U.S. Department of Commerce
HCHB, Room 4812
1401 Constitution Avenue, NW
Washington, DC 20230

Dear Mr. Strickland:

On behalf of the State of Kansas, we would like to submit to NTIA a list of priority projects for consideration under the Broadband Technology Opportunities Program (BTOP). As you are aware, NTIA provided our state staff with information on 85 projects that showed some impact on Kansas.

The State of Kansas established scoring criteria upon which all participating applicants were evaluated. A high level of emphasis was placed on the state's priority areas (telemedicine, distance learning, economic development, e-government); as well as the needs of unserved and rural Kansans. The list of applicants provided by NTIA was utilized in disseminating information about the Kansas scoring process. All applicants were asked to self-score and defend those scores based on the rating criteria. Of the 85 projects contacted, 62 submitted self-score information. A rating team then evaluated all information provided to establish an average score for each project.

Based on our scoring results, we would like to recommend 22 projects to NTIA that we feel meet the established criteria of our state. A listing of these projects, in alphabetical order, is attached.

The State of Kansas would like to note that all projects were evaluated based upon information provided to the State by NTIA and applicants. Due to the tight timeframes on states in this process and a lack of additional data, the State of Kansas did not attempt to validate applicants' claims of meeting the needs of unserved populations. Similarly, the State did not attempt to evaluate whether applications were duplicative of each other's service areas. It is our understanding that providers and other applicants will have a period to voice such concerns through the federal process.

We believe the BTOP program provides great potential for our state as well as the country as a whole. If you need anything additional from us, please contact me or one of our program staff dedicated to this effort.

We look forward to working with you, and thank you for your consideration.

Sincerely,

Mark Parkinson
Governor
